### Performance disclosures

We show performance at the strategy level based on all securities in all accounts that are allocated to a particular strategy, such as "Fundamental Value." Results include the value of any dividends received. Inception to date results are shown from 6/6/16 until the most recent available period (generally last quarter end or last business day).

Past performance is not indicative of future results. It is not possible to invest directly in an index. Index performance does not reflect charges and expenses and is not based on actual advisory client assets. Index performance does include the reinvestment of dividends and other distributions. The performance is shown as net of 1.75% advisory fees. Some clients may receive services at a lower advisory fee with a performance fee based on the gains in the account. For current performance information, please contact us at (813) 603-2615.
